Notes: Thursday March 18th is a match balancing day. By using cross division matches all teams in each division get 11 matches (Bremerton gets 12). Teams that have already played 11 contests (except Bremerton) have this bye date free (pick up contests or contingency contests). Teams from each division can pick up additional contests if they can fit them into their schedules. The North Division has a whole block bye day mid-season (pick up contests or contingency contests). The South Division has an odd number, so they can add contests on their bye day.
